NORTH-HOLLAND

Author Index for Volume 262

BEBIANO, NATÁLIA AND DA PROVIDÊNCIA, J.: On the Dual of a Result of Miranda and Thompson, 119–129

CHENG, HON-WING AND YAU, STEPHEN S.-T.: More Explicit Formulas for the Matrix Exponential, 131–163

DA PROVIDÊNCIA, J.: *See* Bebiano, Natália

DING, J. AND HUANG, L. J.: On the Continuity of Generalized Inverses of Linear Operators in Hilbert Spaces, 229–242

EMAMY-K, M. R.: *See* Kalantari, B.

GILBERT, JOHN R., NG, ESMOND G., AND PEYTON, BARRY W.: Separators and Structure Prediction in Sparse Orthogonal Factorization, 83–97

GRADY, MICHAEL AND NEWMAN, MORRIS: The Geometry of an Interchange: Minimal Matrices and Circulants, 11–25

HARTFIEL, D. J.: Eigenvector Sets for Intervals of Matrices, 1–10

HUANG, L. J.: *See* Ding, J.

INSEL, ARNOLD J.: Levels of Subnormality, 27–53

JIANG, ERXIONG AND LAM, PETER C. B.: An Upper Bound for the Spectral Condition Number of a Diagonalizable Matrix, 165–178

JOHNSON, CHARLES R., MAYBEE, JOHN S., OLESKY, D. D., AND VAN DEN DRIESSCHE, P.: Nested Sequences of Principal Minors and Potential Stability, 243–257

KALANTARI, B. AND EMAMY-K, M. R.: On Linear Programming and Matrix Scaling Over the Algebraic Numbers, 283–306

KIRKLAND, STEVE: Perron Vector Bounds for a Tournament Matrix With Applications to a Conjecture of Brualdi and Li, 209–227

LAM, PETER C. B.: *See* Jiang, Erxiong

MARTINS, ENIDE ANDRADE AND SILVA, FERNANDO C.: On the Number of Invariant Polynomials and Matrix Commutators, 179–188

MAYBEE, JOHN S.: *See* Johnson, Charles R.

NEWMAN, MORRIS: *See* Grady, Michael

NG, ESMOND G.: *See* Gilbert, John R.

OKNIŃSKI, JAN: Triangularizable Semigroups of Matrices, 111–118

OLESKY, D. D.: *See* Johnson, Charles R.

PEYTON, BARRY W.: *See* Gilbert, John R.

ROHN JIŘÍ: Overestimations in Bounding Solutions of Perturbed Linear Equations, 55–65

SILVA, FERNANDO C.: Possible Block Similarity Classes of a Matrix With a Prescribed Nonprincipal Submatrix. II, 259–282

SILVA, FERNANDO C.: *See* Martins, Enide Andrade

SPANOUDAKIS, N. K.: Operators in Finite Distributive Subspace Lattices. III, 189–207

TAM, TIN-YAU: Miranda and Thompson's Trace Inequality and a Log Convexity Result, 307–325

VAN DEN DRIESSCHE, P.: *See* Johnson, Charles R.

XU, HONGGUO: Two Results About the Matrix Exponential, 99–109

XU, SHU-FANG: Lower Bound Estimation for the Separation of Two Matrices, 67–82

YAU, S.-T.: *See* Cheng, Hon-Wing
